

# Techno Associe Group Procurement Policy

1. Optimal procurement activities to support business activities and the sustainable development of society

Our group contributes to the development of the economy and society by expanding our business globally, providing superior products and services, and responding to the needs of our customers.

In addition to continuing to support our business, we will conduct optimal procurement activities from a global perspective that comprehensively takes into account factors such as quality, cost, delivery time, development capabilities, continuous supply capacity, and CSR initiatives in order to contribute to the sustainable development of society.

2. Fair, transparent, and appropriate procurement activities

Our group will conduct fair, transparent, and appropriate procurement activities by providing open and fair business entry opportunities and selecting business partners based on reasonable processes and judgments.

3. Compliance

Our group complies with relevant laws and regulations and carries out procurement activities based on social norms as well.

4. Partnership

Our group believes that collaboration based on mutual understanding and mutual trust with our business partners is essential to providing customers with socially useful, safety, and superior products and services in terms of quality, cost, etc.

We will conduct procurement activities that strive to improve the satisfaction of not only our customers but also our business partners so that we can continue to be a good partner trusted by our business partners.

5. Consideration for the global environment

In order to contribute to the development of a sustainable society by acting positively on the protection of the global environment, our group will conduct procurement activities with consideration given to the reduction of environmental impact in accordance with our Quality and Environmental Policy.
